Journal Papers and Book Chapters

- [J33] Joy Oluchi Ugurua, John G. Beerends, "Effects of voiced consonants and speaker gender on the acoustic characteristics of preceding vowels in Ika", *South African Journal of African Languages*, vol. 40, pp 275-281 (2020 Dec.)
- [J33] Joy Oluchi Ugurua, Ann O. Nwankwob, John G. Beerends and Ndubuisi Ahamefulaa, "Quarry Noise in a Living Environment: Effect on Speech Perception", *J. Hum. Ecol.*, 69(1-3): 15-24 (2020 Jan.) DOI: 10.31901/24566608.2020/69.1-3.3168
- [J32] J. G. Beerends, N. M. P. Neumann, E. L. van den Broek, A. Llagostera, J. Torres Menendez, C. Schmidmer, and J. Berger, "Subjective and Objective Assessment of Full Bandwidth Speech Quality," in *IEEE/ACM Transactions on Audio, Speech, and Language Processing*, vol. 28, pp. 440-449 (2020 Jan.) .
- [J31] P. Počta and J. G. Beerends, "Subjective and Objective Assessment of the Listening Quality of Customer Support Waiting Loops", *Acta Acustica United With Acustica*, vol. 105, pp. 392-400 (2019 March/april).
- [J30] F. van der Sluis, E. L. van den Broek, A. van Drunen and J. G. Beerends, "Enhancing the quality of service of mobile video technology by increasing multimodal synergy," *Behaviour & Information Technology*, vol. 37, no 9, pp. 874-883, (2018 July), DOI: 10.1080/0144929X.2018.1505954, <https://doi.org/10.1080/0144929X.2018.1505954>
- [J29] O.L. Uguru, J.G. Beerends, D. P. Ebem, "Recognition of indigenous and foreign speech in a noisy classroom: A case of primary school pupils", *Building Acoustics*, vol. 24, pp. 255-279 (2017).
- [J28] P. Počta and J. G. Beerends, "Subjective and Objective Measurement of the Intelligibility of Synthesized Speech Impaired by the Very Low Bit Rate Stanag 4591 Codec Including Packet Loss", *Acta Acustica United With Acustica*, vol. 103, pp. 311-316 (2017 Feb.).
- [J27] J. G. Beerends, K. van Nieuwenhuizen, and E. vd Broek, "Quantifying Sound Quality in Loudspeaker Reproduction", *J. Audio Eng. Soc.*, vol. 64, pp. 784-799 (2016 Oct.).
- [J26] P. Počta and J. G. Beerends, "Subjective and Objective Assessment of Perceived Audio Quality of Current Digital Audio Broadcasting Systems and Web-casting Applications", *IEEE Transactions on Broadcasting*, vol. 61, pp. 407-415 (2015 Sep.).
- [J25] P. Počta and J. G. Beerends, "Subjective and Objective Measurement of Synthesized Speech Intelligibility in Modern Telephone Conditions", *Speech Communication*, vol. 71 pp. 1-9 (2015 July).
- [J24] J. G. Beerends and I. Beerends, "On the Assessment of High Quality Voice Recordings Including Voice Post Processing," *J. Audio Eng. Soc.*, vol. 63, pp. 174-183 (2015 March).
- [J23] J. G. Beerends, C. Schmidmer, J. Berger, M. Obermann, R. Ullman, J. Pomy and M. Keyhl, "Perceptual Objective Listening Quality Assessment (POLQA), The Third Generation ITU-T Standard for End-to-End Speech Quality Measurement Part II – Perceptual Model," *J. Audio Eng. Soc.*, vol. 61, pp. 385-402 (2013 June).
- [J22] J. G. Beerends, C. Schmidmer, J. Berger, M. Obermann, R. Ullman, J. Pomy and M. Keyhl, "Perceptual Objective Listening Quality Assessment (POLQA), The Third Generation ITU-T

- Standard for End-to-End Speech Quality Measurement Part I – Temporal Alignment,” *J. Audio Eng. Soc.*, vol. 61, pp. 366-384 (2013 June).
- [J21] D. U. Ebem, J. G. Beerends, C. Schmidmer, J. M. Van Vugt, R. E. Kooij and J. O. Uguru, “The Impact of Tone Language on Measuring Speech Quality,” *J. Audio Eng. Soc.*, vol. 59, pp. 647-655 (2011 Sep.).
- [J20] J. G. Beerends, R. A. van Buuren, J. M. Van Vugt, J. A. Verhave, “Objective Speech Intelligibility Measurement on the Basis of Natural Speech in Combination with Perceptual Modeling,” *J. Audio Eng. Soc.*, vol. 57, pp. 299-308 (2009 May.).
- [J19] S. van der Gaast, J. G. Beerends, O. K. Ahmed, and H. B. Meeuwissen, “Quantification and Prediction of End-user Perceived Web-browsing Quality,” *NERG* issue 1 vol. 73, pp. 21-29 (2008 Jan.).
- [J18] J. G. Beerends, B. P. Busz, P. Oudshoorn, J. M. Van Vugt, O. K. Ahmed, O. A. Niamut, “Degradation Decomposition of the Perceived Quality of Speech Signals on the Basis of a Perceptual Modeling Approach,” *J. Audio Eng. Soc.*, vol. 55, pp. 1059-1076 (2007 Dec.).

- [J1] J. G. Beerends and A. J. M. Houtsma, "Pitch Identification of Simultaneous Dichotic Two-Tone Complexes," *J. Acoust. Soc. Am.*, 80:1048-1056, 1986.

Patents

- [P35] J. G. Beerends, S. Wiarda, H. B. Meeuwissen, "*Glass box models for predicting circuit switched speech quality in 3G telecommunications networks*," European patent application 403751EP, US 2015/0365839, Koninklijke KPN N.V. (2014 June).
- [P34] J. G. Beerends, "*empty speech band processing*," International patent application P104191EP00, European patent application 14160914, PLT 2013152, PCT WO2015/142175, Nederlandse Organisatie voor toegepast-natuurwetenschappelijk onderzoek TNO (2013 Dec.).
- [P33] J. G. Beerends, "*Method of and apparatus for evaluating intelligibility of a degraded speech signal*," International patent application P99623EP00, European patent application 12193082, Nederlandse Organisatie voor toegepast-natuurwetenschappelijk onderzoek TNO (2012 Nov.).
- [P32] J. G. Beerends, "*Intelligibility measurement device II*," International patent application P96087EP10, European patent application 12791581.7, European patent EP2780909B1, Nederlandse Organisatie voor toegepast-natuurwetenschappelijk onderzoek TNO (2011 Oct) (weight factor in loud soft switching device).
- [P31] J. G. Beerends, "*Intelligibility measurement device I*," International patent application P96088EP10, European patent application 12791582.5, Nederlandse Organisatie voor toegepast-natuurwetenschappelijk onderzoek TNO (2011 Oct) (loudness weight of degradation).
- [P30] J. G. Beerends, J. M. van Vugt, "*Method and system for determining a perceived quality of an audio system*," International patent application 403462, European patent application 09010501, August 2009, Koninklijke KPN N.V. (POLQA Topology for Level Impact Estimation).
- [P29] J. G. Beerends, J. M. van Vugt, "*Method and system for determining a perceived quality of an audio system*," International patent application 403457, European patent application 09010500, August 2009, Koninklijke KPN N.V. (POLQA Noise Impact Estimator).
- [P28] H. M. Stokking, O. A. Niamut, M. O. van Deventer, F. A. Walraven, V. B. Klos and J. G. Beerends, "Generating a stream compromising synchronized content," European patent application 09008735, July. 2008, Koninklijke KPN N.V.
- [P27] J. G. Beerends, "*Speech quality and intelligibility measurement algorithm*," International patent application 07019894, premier depot, Oktober 2007, Koninklijke KPN N.V.

- [P26] J. G. Beerends, B. Busz, J. M. van Vugt, O. A. Niamut and M. R. Bangma, “*Method and system for speech quality prediction of the impact of time localized distortions of an audio transmission system*,” European patent application 08734847 EPA07006550, PCT EP2008002472, March 2007, Koninklijke KPN N.V. (time response degradation impact analyzer).
- [P25] J. G. Beerends, J. M. van Vugt, and M. R. Bangma,, “*Method of testing a digital data connection for IPTV*,” International patent application 06075712, March 2006, Koninklijke KPN N.V.
- [P24] J. G. Beerends, B. Rakoczi, P. H. A. Venemans, “*Data session time prediction*,” International patent application 403005; December 2004, Koninklijke KPN N.V.
- [P23] J. G. Beerends, “*Linear frequency distortion impact analyzer*,” International patent application 05787331 NL2005000683, European patent application EPA04077601, September 2004, Nederlandse Organisatie voor toegepast-natuurwetenschappelijk onderzoek TNO.
- [P22] J. G. Beerends, “*Method and system for speech quality prediction of an audio transmission system*,” International patent application 04714792; PCT EP2004002026, European patent application EPA03075949 (March 2003), Koninklijke PTT Nederland N.V. (Filter scale loop).
- [P21] J. G. Beerends, L. Jorguseski, “*Method and system for analysing data quality measurements in data communication systems*,” International patent application 04739997; PCT EP2004006538, European patent application EPA03076894, June 2003, Koninklijke PTT Nederland N.V.
- [P20] J. G. Beerends, “*Method and system for measuring a system’s transmission quality*,” International patent application 02075973; PCT EP0302058, March 2002; Koninklijke PTT Nederland N.V. (Softscaling).
- [P19] J. G. Beerends, “*Improved method for determining the quality of a speech signal*,” International patent application 01203699 and 02743062; PCT EP0205556; European patent application EPA01203699, Oct. 2001, USA patent application USP297113, June 2001, Koninklijke PTT Nederland N.V. (Frequency dependent frequency compensation).
- [P18] A. P. Hekstra, J. G. Beerends, “*Output power decompensation*,” International patent application 402714; PCT EP02/02342; European patent application 01200945.2, EP1374229B1, March 2001; Koninklijke PTT Nederland N.V.
- [P17] A. P. Hekstra , J. G. Beerends, “*A method and a device for output based objective speech quality assessment*,” International patent application 00203109; PCT EP0110154; European patent application EPA1187100, September 2000; USA Patent nr. 7024352, April 2006; Koninklijke PTT Nederland N.V. (recoding).
- [P16] S. R. Appel , J. G. Beerends and A. P. Hekstra, “*Measuring a talking quality of a telephone link in a telecommunications network*,” International patent application 00203936, EP1206104, November 2000, USA Patent nr. 7366663, April 2008; Koninklijke PTT Nederland N.V. (PESQM Echo Noise).
- [P15] J. G. Beerends, “*Teleconferencing system and apparatus using audio-visual means*,” International patent application 402664; European patent application 00202301.8-2202, June 2000; Koninklijke PTT Nederland N.V.
- [P14] J. G. Beerends, A. P. Hekstra, “*Method and device for determining the quality of a signal*,” International patent application 00983281, PCT EP0012535, NLA1014075, Jan 2000, Koninklijke PTT Nederland N.V. (two-step time averaging).
- [P13] J. G. Beerends, “*Measuring the perceptual quality of speech signals including echo disturbances*,” International patent application 402582; European patent application 00967661.0-2411, January 2000; PCT WO 01/20804, March 2001, EP 1216519; Koninklijke PTT Nederland N.V.
- [P12] A. P. Hekstra , J. G. Beerends, “*Determination of the time relation between signals affected by time warping*,” International patent application 00972888; PCT EP0010948; European patent application EPA99204089, Dec.1999, USA patent 7139705, Nov. 2006; Koninklijke PTT Nederland N.V. (speech align, stilte manipulatie)
- [P11] A. P. Hekstra , J. G. Beerends, F. E. de Caluwe, R. H. Koenen, “*Q-Box, werkwijze en codeer-decodeerinrichting voor het beoordelen van de beeldkwaliteit van gereproduceerde*

beelddata,” International patent application 402449, June 1999; Koninklijke PTT Nederland N.V.

- [P10] A. P. Hekstra , J. G. Beerends, R. H. Koenen, F. E. de Caluwe, “*A method and arrangement for aligning input and output video sequences for video quality measurement*,” International patent application 402523; European patent application 98203984.5-2202, February 1999; Koninklijke PTT Nederland N.V. (video align)
- [P9] A. P. Hekstra , J. G. Beerends, R. H. Koenen, F. E. de Caluwe, “*A method and arrangement for objective assessment of video quality*,” International patent application 402366, February 1999; European patent application 98200643.9-2202, May 1998, International patent publication WO 99/45715, September 1999; USA patent 6,704,451, maart 2004; Koninklijke PTT Nederland N.V. (video edginess)
- [P8] J. G. Beerends, “*Device and method for signal quality determination*,” International patent application 402279; PCT EP0945045, International patent publication WO 98/26633, EP 0945045, June 1998; Koninklijke PTT Nederland N.V. (speech gsm)
- [P7] J. G. Beerends, “*Signal quality determining device and method*,” International patent application 402068; PCT EP96/01102; International patent publication WO 96/28953, September 1996; USA Patent 6064946, EP 0815707, May 2000; Koninklijke PTT Nederland N.V. (AKB schaler)
- [P6] J. G. Beerends, “*Signal quality determining device and method*,” International patent application 402211; International patent publication WO 96/28952, September 1996; USA Patent 6064966, May 2000; Koninklijke PTT Nederland N.V. (audio complexity)
- [P5] J. G. Beerends, “*Signal quality determining device and method*,” International patent application 402223; PCT EP96/01143; International patent publication WO 96/28950, September 1996; USA Patent 6041294, EP 0815705, May 2000; Koninklijke PTT Nederland N.V. (AKB schaler 2, internal noise)
- [P4] J. G. Beerends, “*Device for determining the quality of an output signal to be generated by a signal processing circuit, and also method*,” International patent application 402247; European patent application 96201348.8-2215, EP 0901677, May 1996; International patent publication WO 97/44779, November 1997; Koninklijke PTT Nederland N.V. (audio binaural streaming)
- [P3] R. L. A. van Ravesteijn, F. Muller, and J. G. Beerends, “*Bark amplitude component coder for a sampled analog signal and decoder for the coded signal*,” Patent application 9002308 The Netherlands, March 1990; PCT EP0482699, 91202675.4 Europe, October 1991; 2053133 Canada, May 1996; 5588089 USA, December 1996; Koninklijke PTT Nederland N.V.
- [P2] J. G. Beerends, “*Probabilistic pitch meter*,” Patent application 8900520 The Netherlands, March 1989; PCT EP0386820, 9020044007 Europe; 487462 USA; 45984/90 Japan; United States Patent 5,321,636, June 1994; Philips International B.V., Eindhoven, The Netherlands,
- [P1] J. G. Beerends, “*Loudspeaker enclosure*,” Patent application 8300331 The Netherlands (in Dutch), Patent office Arnold en Siedsma, The Hague, The Netherlands, January 1983. Awarded by a grant of Dfl 45.000,- in an idea contest by Job Creation, Korte Poten 7, The Hague, The Netherlands, June 1983.

Dissertation
